OBITUARY.

General Charles G. Halpine. A special despatch from New York city announces the death of General Charles Graham Halpine, of that city, who was better known throughout the country under the pseudonym of “Private Miles O'Reilly.”

General Halpine belonged to an old Irish Protestant family of good standing, and was a native of Dublin, we believe, where his early youth was passed.

At a time he resided in London, where he was engaged in the study of the law. At about the age of twenty-one he arrived in this country, and the letters of introduction which he brought into a select circle of acquaintances.

During this same period he was a frequent contributor to the daily journals of New York, writing in both prose and verse with great readiness and general excellence.

It was at this time that he wrote the celebrated lyric entitled “The Flamingo Lie,” the sensation created by which has become a part of the history of the country.

During the greater portion of the war, General Halpine was in active service in the field, having been for a long time upon the staff of Major-General David Hunter, while the latter held command at both the East and West.

At the close of the war, the New York Citizen, a weekly newspaper, to advocate the reformatory schemes of the “Citizens' Association,” of which Peter Cooper, Esq., is President, was established, and General Halpine became, and continued to the day of his death, its chief editor.

General Halpine's career as a journalist was one of unequalled success. He was one of the readiest and most rapid writers in the country, while his style was pungent and attractive, and his fund of anecdote and illustration quite inexhaustible.

His poetry, of which there is a large quantity floating about in newspapers, was of no mean order, some of his lyrics being characterized by great depth of feeling and sweetness of expression.
